Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Examiner withdraws 35 U.S.C. 112, second paragraph rejection for claim 1 and 35 U.S.C. 112, first paragraph rejection for claims 14-23 based on the amended claims submitted by the applicant.

Election/Restrictions

1. In light of the amendments and explanation by the Applicant on 7 March 2005, Examiner submits the following written restriction.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3, 7-10, 11-13, 14-17, 18-22 & 23-24 draws to communicating information comprised of various data types, classified in class 709, subclass 238.
 - II. Claims 4-6 draws to prioritizing communications based on data type, classified in class 709, subclass 240.
3. The inventions are distinct from each other because a communication network communicating more than one type of data does not rely upon a method on communicating that is based on prioritizing according to a data type.
4. Inventions I & II are related as combination and subcombination. Inventions in this relationship are distinct if it can be show that (1) the combination as claimed does not require the particulars of the subcombinations as claimed for patentability, and (2) that the subcombination has the utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because a communication network communicating more than one type of data does not rely upon a method on communicating that is based on prioritizing according to a data type.

Art Unit: 2143

5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).
